Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 August 2002.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

2. Claims 1-3, 5-6, 34-36 and 38-39 are rejected under 35 U.S.C. 102(e) as being anticipated by Papa et al. (US 6,175,490 B1).

Papa teaches a cooling assembly comprising:

- A passage (from 567 on 560D through 560B, fig. 6) being separated from another heat-sensitive component within the computer case (shown in fig. 6) (claims 1 and 34)
- A fan (566A, fig. 6) (claims 1 and 34)
- An isolation assembly (140, fig. 3A) being removably attachable to a computer case (101, fig. 1) without opening the computer case (claims 1 and 34)

Art Unit: 2835

- A first component (network interface, not shown, see col. 3, lines 5-15) being enclosed within the isolation assembly in communication with the passage (claims 1 and 34)
- An alternate passage (from 567 on 560C through 560B, fig. 6) including a conduit (case 560, fig. 6) (claims 2 and 35)
- Wherein a plurality of components (not shown, see col. 3, lines 5-15) are enclosed in a case, and air is drawn from outside the case (through perforations 177 fig. 3B and in housing panels, see col. 5, lines 1-3) (claims 5-6 and 38-39)

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 4, 32-33, 37 and 40-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Papa et al. in view of Behl (US 6,185,097 B1).

Papa discloses the claimed invention except the alternate passage having a passive heat sink and the isolation assembly being configured to shield a first component from an EMI. However, Behl teaches a cooling assembly (16, fig. 6) having a passive heat sink (18, fig. 1) and EMI shield (32, fig. 3). It would have been obvious to

Art Unit: 2835

one having ordinary skill in the art at the time the invention was made to modify the device of Papa with the cooling assembly taught by Behl such that higher cooling efficiency and EMI shielding effect would be provided.

Response to Arguments

5. Applicant's arguments with respect to claim 1-6 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2835

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Correspondence

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yean-Hsi Chang whose telephone number is (703) 306-5798. The examiner can normally be reached on 07:30-16:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Darren Schuberg can be reached on (703) 308-4815. The fax phone number for the organization where this application or proceeding is assigned is (703) 305-3431 for regular communications and for After Final communications. There are RightFAX numbers and provide the fax sender with an auto-reply fax verifying receipt by the USPTO: Before-Final (703-872-9318) and After-Final (703-872-9319).

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 305-8558.
